

	ITCareerToday web form http://itcareer.pythonanywhere.com/		Platform: Google Chrome OS Version: Windows 8 x64			
ID	Summary	Result	Bug-report ID			
General checks						
1	Company name and logo.	Fail	1			General requirements: Name, Email, Password - required fields. All the input data must be in Latin. If the input data is invalid, the borders of the field are red and a pop up says which field is with an error. After registration with valid data a message in a blue box pops up saying: "Success, you are registered!". The input data in the "Name" and "Surname" fields can be the same. Text in the placeholders ends with a dot.
